

Update on Feedback from Members on China Ports

Singapore, 26 April 2017

Joyce Teng

Assistant Regional Manager Asia-Pacific, INTERTANKO

China Discussion Paper

- 1. Pilotage**
 - 1. Pilotage Boarding**
 - 2. Pilotage Experience and Competence**
- 2. Hydrographic information at tanker berths and terminals**
- 3. Small craft and fishing vessel traffic**
 1. Hainan Island
 2. North entrance to Ningbo, off Zhoushan Island
 3. Yangtze River
- 4. Ningbo and Zhoushan Island**
- 5. Phantom collision claims**
- 6. New tanker terminals and port developments**

Pearl River Delta Region

INTERTANKO

High concentration of fishing vessels moving in different directions on / around Guangzhou Deep Draft Channel

High concentration of coastal vessels. Suggestion: Hong Kong and China to provide a dedicated TSS in order for vessel to cross the general direction of traffic flow to arrive at pilot boarding ground for Guangdong Dapeng LNG terminal.

Local vessels often do not follow COLREGS.

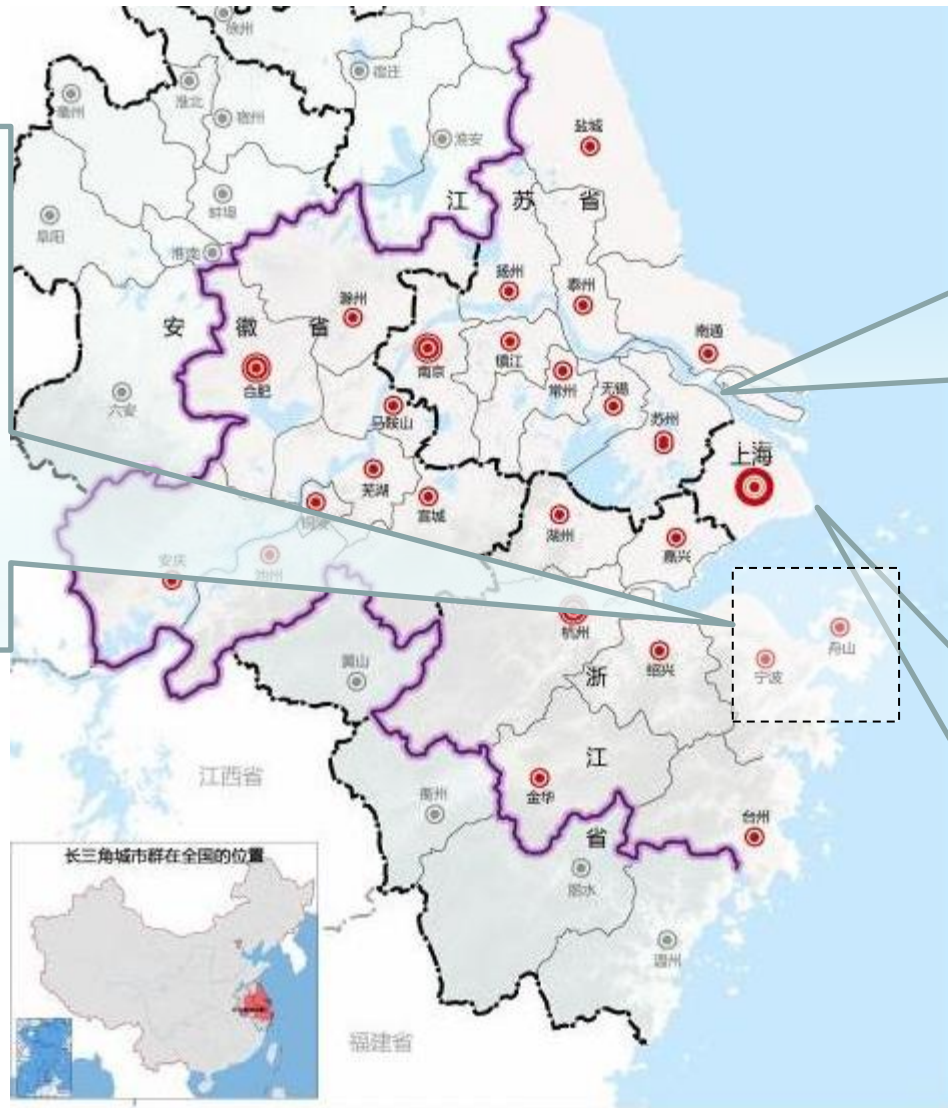

Yangtze River Delta Region

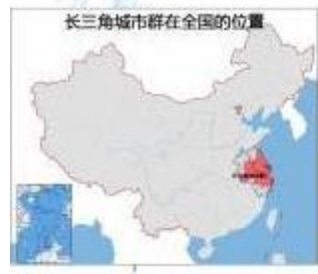

INTERTANKO

High concentration of fishing vessels at entrance of **Ningbo** port. Significant number of anchored vessels making the approach to **Ningbo-Zhoushan** by deep draft VLCC very difficult.

Approach to **Zhangjiagang** port:
1/Erroneous hydrographic info;
2/Significant tug/barge movements

Approach to **Yangshan** LNG terminal:
1/Erroneous hydrographic info;
2/High concentration of fishing and coastal vessels

Caofeidian terminal

1/Erroneous hydrographic info
2/Significant fishing vessel traffic
3/VLCC berths face open sea but unberthing not done according to standards.

Rizhao port

VLCC berths face open sea and unberthing not done according to standards.

Significant number of fishing vessels interfering with safe navigation of tankers

Huangdao port

Anchor drag occurred as a result of soft seabed of inner anchorage.

Yangpu

Few new terminals
yet to be charted.

Zhanjiang, Maoming

'Moderate fishing boats/small
crafts around port entries

China discussion paper

- Ongoing process – Secretariat will continue to engage China MSA with feedback received from members
- Feedback needs to be specific with as much details as possible
- Use feedback form

INTERTANKO

Thank you.
